## SUMMARY

---

Current senior at Western Oregon University, pursuing a Bachelor's in Computer Science. My skills and experience include utilizing HTML, CSS, Javascript, Python, C#, and frameworks such as ASP.NET Core MVC and Vue to create and develop web applications. I have experience in full stack development, and a strong interest in continuing to learn and grow in frontend.

## EXPERIENCE

---

03/2022 – 10/2023

### WESTERN OREGON UNIVERSITY COMPUTING SOLUTIONS

#### Student Programmer

- Developed a productivity web application and API using Groovy, Grails, and Vue that interfaced with external project management software to support department operations.
- Provided technical support and delivered software development projects for clients.
- Effectively and collaboratively worked with other team members, as well as various developers and clients in organizations throughout the university for various aspects throughout the development process.

10/2021 – 06/2022

### WESTERN OREGON UNIVERSITY COMPUTING SOLUTIONS

#### Support Technician

- Installed, maintained, and repaired computer hardware for clients.
- Provided personal consultation while aiding clients with various software applications, and designed clear reference guides for technical assistance.
- Assisted clients by performing extensive troubleshooting on both hardware and software issues across various operating systems and platforms.
- Collaborated as a team with other support technicians and service request team to create, manage, and complete tickets to fulfill requests from university clients.
